

THE UNFORGETTABLE EXPERIENCE AT VRPLAYIN

Ever heard the age-old saying "United we stand, divided we fall"?

Nothing brings people together more than having to work side-by-side to survive a zombie apocalypse. Or, picture this – A bunch of trolls are trying to break into your castle in a mystical world. You and your team members are equipped with bow and arrows and must work together to protect your castle. They are all around you, so you are forced to communicate with your team and figure out the best strategy to ward them all off.

These are just some of the many multiplayer experiences VR can offer, without having to worry about actually getting bitten and infected by a zombie or shot with an arrow.

Even though you are separated in the safety of padded booths, nothing offers a more immersive team-building exercise quite like VR does. Set in all kinds of alternate realities, VR offers a new experience while still combining the core concept of working together to achieve goals – and having tons of fun while doing it.

Sure, anyone can go out to play ping pong, sports, archery tag or paintball. But to be able to try all of these team-working activities in one place? Only VR can make this possible.

THE SPACE

Curious to test it all out? Whether you are celebrating a milestone, entertaining a client, or just looking for a social night out of the office - VRPlayin can provide your team with memorable experiences. We offer 18 Virtual Reality stations and a party room which can accommodate groups of up to 80 for hours of fun, creativity and collaboration.

Each station offers a diverse catalog of over 40 Virtual Reality experiences and games, so that everyone can enjoy. Let each group member experience Virtual Reality at their own pace, our staff are extremely knowledgeable on all the content we have to offer, so they are ready and available to give you tips and guide you through any of the experiences.

HERE ARE JUST A FEW EXAMPLES OF THE MULTIPLAYER ACTIVITIES VR CAN OFFER:

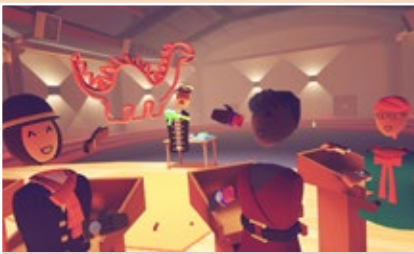

Cowboy Bar Fight

Zombie Apocalypse

Go on Fantasy Quests

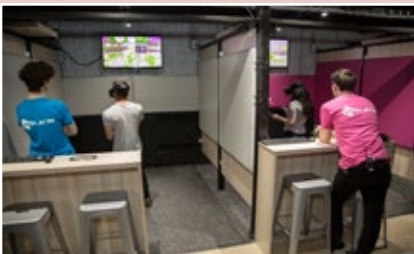

Charades?

Laser Tag and Paintball

Dodgeball

Simulated Flight

HOW OUR EXPERIENCES CREATE STRONGER LASTING BONDS:

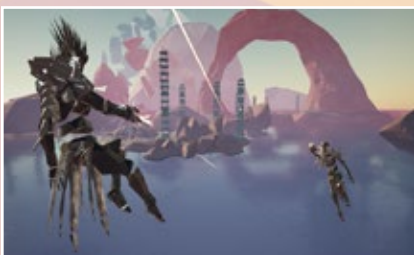

REC ROOM - One of our most popular titles is Rec Room, and with good reason. Having recently won UploadVR's "Best of 2017" award for Best Social Experience, Rec Room really is a world of its own. Challenging quests will push you to work with your team and paintball will have you develop strategies to best the other team.

ARIZONA SUNSHINE - With its 2-player story mode, it is excellent for building deep bonds. But as that takes hours to complete, a survival mode is open for a team of 4 player, with 3 environments to choose from. Communication and Resource Management, both as an individual and as a group, are paramount to surviving the waves of the ravenous dead.

SMASHBOX ARENA - A simple Dodge-Ball inspired game, Smashbox is built around 3v3 competitive play with short, fast-paced rounds. It is excellent for first-time users and blends cooperation and competition well. The teams are selected by players at the start of each game and players "taken out" have a bird's eye view that allows them to communicate the location of their opponents to their team.

TRICKSTER - Allows you to form a party with 3 other brave adventures to help save a world broken by magic (literally). As you stand at the crossroads of several realms you must arm yourself with sword and shield to defend the squishy archers who in turn will provide long range support. Communication is crucial here as well since the more people play the harder the game gets.

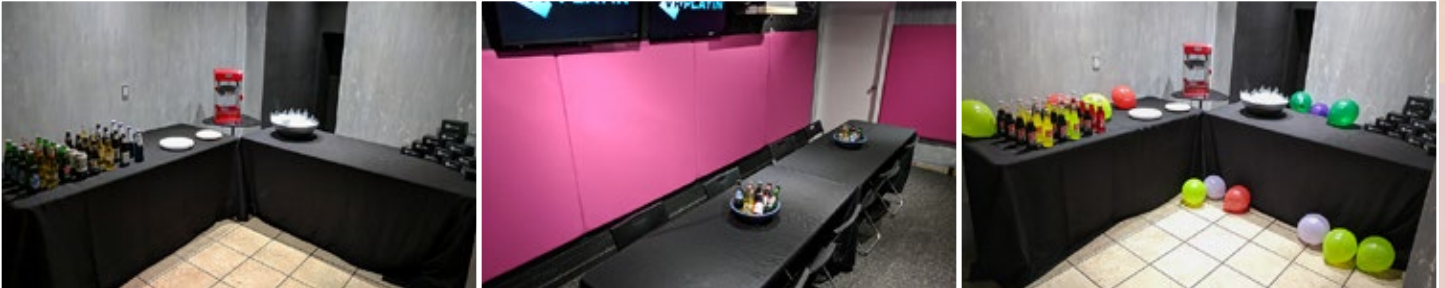

RUN OF MYDAN - A staff favorite where you fly around in abstract worlds. This title truly shines in Domination mode, where 2 teams of 5 players fight for control over 4 points scattered across the play space. No team is capable of holding all 4 points indefinitely, so victory is achieved by the team with better communication as choosing targets and flexibility are important aspects of this experience.

COWBOTS VS. ALIENS - A fun experience that does not take itself too seriously, this title will take you to the wild west in an all out bar fight. Go at it as individuals and laugh as you flip tables on each other, or group up in teams of 4 and smuggle gold out of the other team's reach, all the while protecting your own stash.

CATERING:

Take full advantage of our space by setting up the private party room where we can offer you a fully seated set up with a buffet style service in the next room.

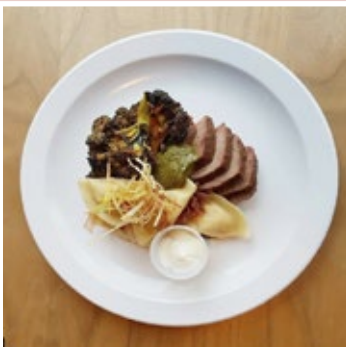

Plus, at VRPlayin you can combine virtual reality with food and drink all in one. We offer 3 different catering options and a fully stocked bar for all your eating and drinking needs. Take a break from the virtual world and enjoy a meal ranging from tacos, burgers and sandwiches, or something a bit more gourmet like Pantry Foods.

Pantry has a wide range of delicious selections including various platters, sandwiches, salads, soups, mains and delectable desserts. They have plenty of options for everyone including vegan, vegetarian or gluten-free; and their generous portion sizes will make sure you'll never go hungry.

Want to take a break from playing? We also offer a wide selection of domestic and imported beers, ciders, coolers and red or white wines. Grab a drink, have a seat and watch your colleagues play on the flat-screen TVs located inside each booth. Whether you're in a headset or simply observing a friend playing, VRPlayin has you covered for a great social experience.

Bringing people together in a safe, interactive, fun, and budget-friendly space. Book with us today for all your entertainment and team-building needs.

Come see for yourself why everyone is talking about VR!
